I worked as Programmer Analyst in Cognizant Technology Solutions from July 2022 to November 2023 and Intern from Feb 2022 to May 2022

Experience : 1 year 7 months

I have passed out from my college in 2022 and joined the company as an intern and got promoted to Full time employee. I have Volunteered in blood donation camps and took part in SPARISH and Roto Fest as a member of Youth Red Cross in my College.

Educational Background

- B.Tech in Rubber and Plastics Technology in

  Madras Institute of Technology , CHENNAI, TN

  2018-2022

- Saratha Matriculation Hr. Sec School

  10th and 12th grade with 94% and 90% respectively

I have worked in Automation testing using Webdriver-IO with Java Script and Cucumber BDD framework in a real time project from July 2022 to November 2023. I have studied API testing using postman from the experts in our company. Done an internship in Selenium and Java for 3 months and cleared SME interview. I have designed and executed many Testcases in which, I have implemented new methods and functions in the script to test every possible scenarios in the modules I own from the application. Bug tracking, Test plan creation and test case execution using Azure DevOps.

Hard Skill
